

# AMAZING WORKS HERE AND WE WANT MORE OF IT

## SOFTWARE DEVELOPER – STUDENT F/M

LINZ, AUSTRIA

### Job Description

Join us and help us create the next generation of technologies that will shape the future for decades to come. The candidate is going to work on the development of software tools that help others execute their business in a smarter way, using her/his software skills. Software Engineers conduct or participate in multidisciplinary research and collaborate with concept and hardware engineers in the design, development, and utilization of productivity enhancement tools.

We offer a positive working atmosphere within a young and professional team, a modern work place and flexible working hours! Ideal candidate would be engaged 15 to 25 hours per week. The minimum salary (full time 2134,31€) is in accordance with the respective collective bargaining agreement. Overpayment is corresponding to education level possible (e.g. completed BSc).
